

APACHE BELT CUTTERS

Apache's belt cutter is an easier, safer, and faster option to cut new belts for equipment maintenance. It also achieves a much straighter cut than the typical utility knife and carpenter's square cuts.

- ▶ Movable guide fence ensures accurately squared belt
- ▶ Ideal for use on lightweight, industrial belting up to 9/16" thick
- ▶ Excellent for our Volta and PVC belts, as well as many others
- ▶ Telescoping handle easily extends an additional 10" for greater cutting leverage
- ▶ Maintenance kit available for easy upkeep
- ▶ 1-year tool warranty
- ▶ Made in the USA

The Apache belt cutter is the perfect tool for cutting belt quickly, safely, and accurately – every time.

PART#	DESCRIPTION
25500007	13" Belt Cutter

*Other sizes may be available upon request. Contact us at 800.553.5455 to find out more.

AFTER EVERY 100 CUTS, it is recommended that you lubricate the wear points of the pins and bearings. Use a light oil, such as a 10W motor oil, and apply frequently where indicated. Doing this will prevent the machine from wearing out prematurely. Easy maintenance kit options and replacement components are also available.

APACHE
Think Forward.

WARNING
VERY SHARP BLADE

ACCESSORIES & MAINTENANCE

Extend the life of your Apache belt cutter with Apache's belt cutter maintenance tools and replacement parts. We have a complete maintenance kit option available, or items can be purchased individually.

Each maintenance kit includes:

- ▶ Replacement blade
- ▶ Blade lubricant
- ▶ Bearing grease
- ▶ Honing stone
